Why am I getting the card?

The primary method of payment for unemployment benefits is by debit card. You have the option to have payments sent to your checking or savings account through direct deposit. **Receiving benefits by check is not an option.**

The card is mailed two days after your **unemployment claim is filed**. It may take 7 to 10 WORKING days for the card to arrive at your address. **You will not receive funds on the card until your claim is approved.**

If there are no employer protests and your claim is approved, you should receive unemployment payments within 18 days.

If your employer protests your claim or there are other problems with your claim, it may take up to 6 to 8 weeks to receive payments.

I received the card, now what?

When your card arrives, **you must activate it.** To activate the card:

- Call Missouri Access toll free at 888-775-3445. You can call 24 hours a day, 7 days a week.

When prompted:

- Enter the 16-digit account number on the front of the card.
- You must enter the Temporary Pass Code which is under the card on the piece of paper. Enter this Temporary Pass Code.
- You will then be asked to make up a PIN. This is a 4-digit code you will use at stores, ATMs, etc., for financial transactions. This PIN is separate from the PIN you use each week to submit your unemployment claim, but you may choose to use the same PIN for both.
- You will be asked to make up your own pass code. **This is another 4-digit code.** The Missouri Access PIN and pass code **cannot** be the same numbers. The pass code will be used when you call Missouri Access to check on your card balance, deposits, purchases, etc., or use the Missouri Access Web site, www.mo-access.com, to obtain information about your debit card account.
- **Read the information provided with the card.** It gives details about how to use the card without being charged fees, the fee schedule, and how to sign up for text alerts to your cell phone when you get a payment to the card or have a low balance.

I've been denied benefits or I have direct deposit. Can I destroy the card?

Even if you are denied benefits, keep the card in a safe place. If you should file and win an appeal or qualify for benefits in the future, you will need the card. Even if you currently have direct deposit, future benefits may go on the card. If benefits are sent to your debit card account and you have destroyed the card, you will have to request a replacement card and wait for receipt before you can access your funds. Debit cards are good for 3 years.
